

Activity 12: Standards Come to Life

Colorado uses standards for Civics, Economics, Geography, and History. In this activity, you will read to the class your assigned standard and describe one activity you would do to convey the standard to a K-4 student (to get ideas, review the expectations for K-4 students for what they should know and be able to do). If you want, you can review the expectations of Grades 5-8, but be sure to announce that to the class.

You will have 2 minutes of class time to present.

In class, you were given a number. Let's say it was 8. Then you are assigned to prepare for Civics 2.3. **OR** You can also choose to ADD 32 to your number and review Geography 5.2 (see number 40 below).

Your goal is to connect these disciplines to the responsibilities of an elementary school teacher.
